Topics

Topics auto creation is disabled. Topics **must** be created explicitly via GitOps.

Users

Currently there are some dedicated users with credentials stored in Vault. Users **must** be created explicitly via GitOps.

How connect to Kafka

Clients should be configured like below

Code block

```
1 [kafka@kafka-producer kafka]$ cat /tmp/config.properties
2
3 security.protocol=SASL_PLAINTEXT
4
5 sasl.mechanism=SCRAM-SHA-512
6
7 sasl.jaas.config=org.apache.kafka.common.security.scram.ScramLoginModule
  required username="some_username" password="****";
8
9 [kafka@kafka-producer kafka]$
```
